AND AIR FREIGHT • SUPPLY OF CASES, CRATES AND SKIDS

HERITAGE

MORE THAN 65 YEARS OF PROFESSIONAL PACKAGING

Fladderak are very proud to say that over 65 years ago, we started packing the most diverse items, such as electronic devices and components, heavy machinery and high tech equipment and systems, and continue the rich diversity to this day. Expanding our activities in this sector and answering the client call for additional services we can boast over forty years of experience in worldwide logistics, by road, sea and air. Fladderak - ready to serve!

EXPORTPACKAGING

PACKAGING IS CUSTOMIZED

Fladderak ensures optimal export packaging by considering the product type, size, protective packaging requirement, mode of transport and handling implications at final destination. Cargo value, fragility, commodity, weight and size are all of great importance in package design, complimented by the capability for special treatment. Using protective inner packaging in vacuum packed foil bags with moisture protection and cushioning for the most sensitive of equipment, ensures your product will arrive safely and intact at it's destination.

FLADDERAK OFFERS FLEXIBILITY

It is clear that a fragile Fine Bone China Wedgwood piece of fine art requires a different packaging approach to a large industrial turbo engine. With Fladderak this ability to cater for such differences demonstrates our flexibility. Our mobile packaging service is ready to help you 24 hours a day, 7 days a week. Orders placed before midday, will be packed and ready the next day.

PACKAGING ON LOCATION

FLADDERAK MOBILE

To be able to export pack goods on site, Fladderak offers a mobile export packaging service staffed by experienced professionals. For large scale projects, where consignments require professional packing on location, our teams are fully equipped with tools and handling equipment including our 20ft mobile container furnished as a complete warehouse. A popular request from our clients' who are international machinery manufacturers.

BOXES, CRATES AND SKIDS

ALL PERFECTLY TAILORED

All cases, crates and skids are produced in our self-sufficient, in house carpentry facility, incorporating a wide range of materials to fulfil our clients' requirements. This enables us to react quickly to package production requirements for multi modal transport, both for in or out of gauge, weight and dimensional cargo. Fully compliant to ISPM-15 standards for worldwide export (registered with Stichting Markering Houten Verpakkingen), we are also PEFC certified.

MARSHALLING

PROJECT COORDINATION TO PERFECTION

We can arrange collection of your valued cargo for domestic or international projects, receive into our facility and provide verification services to include consignment checks for completeness, content and damage.

DEPENDING ON YOUR INSTRUCTIONS WE WILL CARRY OUT THE FOLLOWING ACTIVITIES;

- Road, Air or Sea worthy packing in boxes, crates or skids, and/or stowing of containers
- The preparation of packing lists per shipment
- Application of shipping marks for different units
- Loading of packaged goods on trailers or stowing into containers
- Full delivery service to departing air or sea port

Fladderak will take care of everything!

TRANSPORT

IN GOOD HANDS

Reliable, punctual and trustworthy your packaged goods are in safe hands. Fladderak are proud to personally ensure that your consignment will arrive safely at the chosen port of departure. Our logistics department can also offer national and international road, sea or air transport services, with the added assurance of Regulated Agent registration for Air cargo security, Fladderak remain versatile to serve you.

These are all services that Fladderak is proud to serve you with!

QUALITY AND SECURITY

With ISO-9001 and VCA certifications, quality and security accomplishments remain Fladderak's main priority.

CONTAINER STOWING

OPTIMAL LOAD

Adopting the most efficient stowing methods combined with secure lashing of cargo for safe transit, we ensure cost effectiveness and the correct level of protection for your cargo.

OFFERING EITHER :

1. Conventional wooden chocking / blocking with strapping or
2. Shock absorbing with airbags and/or "cocolok" floors

Our mobile team can also conduct these services at your location.

Shippers own containers are available for purchase or daily rent.

CUSTOMS

Fladderak is a fully certified "Authorised Economic Operator - AEO", connected to the electronic declaration system "AGS" and has its own customs bonded warehouse facility. This means that our experienced trained personnel execute the administrative handling of your shipment with precision and the utmost attention. For the client experience, bonded goods are treated as easily as non bonded goods, with Fladderak processing all necessary documentation.
